PROFILE

Full Stack JavaScript Developer with 1 year of experience and a Bachelor's degree in Computer Science. Proficient in MERN stack (MongoDB, Express.js, React.js, Node.js) and building scalable web applications. Experienced in delivering enterprise-level solutions for a Google client, with strong knowledge of REST APIs, ES6+, and agile development.

EDUCATION

Quantum University — Roorkee, India

Bachelor of Engineering in Computer Science & Engineering — 2020 – 2024

- CGPA: 8.01 | Among the top 5% of the batch
- Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Network, Software Engineering.

SKILLS

Languages: JavaScript (ES6+), TypeScript

Frontend: HTML, CSS, Bootstrap, React.js, Redux Toolkit, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Middleware, WebSocket (Socket.IO), WebRTC (Real-Time Communication)

Database: MongoDB, MySQL, Mongoose

Tools & Platforms: Git, GitHub, Postman, VS Code, AWS (S3, EC2 – Basics), Checkmarx, SonarQube, Black Duck, Jenkins, CI/CD Pipelines, npm, Axios, ESLint, Prettier, ngrok

Integrations & Authentication: Google APIs, Microsoft APIs, OAuth 2.0, Third-Party API Integration

CERTIFICATIONS

- **MERN Stack Development Certification** — LinkedIn Learning | Sep 2025.
- **Oracle Database Foundation Certification** — Oracle | May 2021 – Jul 2022.
- **Database Designer Certification** — Oracle (via Quantum University) | Dec 2021

EXPERIENCE

GlobalLogic — *Gurgaon, India*

Associate Software Engineer (Client: Google – Onsite) — July/2025 – Present

- Developed and maintained scalable full-stack web applications using React.js, Node.js, Express.js, and REST APIs.
- Built reusable and responsive UI components using React (Hooks, Context API), improving performance and user experience
- Integrated frontend with backend services using Axios/Fetch and implemented efficient API handling
- Designed and optimized backend services, including API development, validation, and error handling
- Worked with MongoDB and Mongoose for schema design, data modeling, and query optimization
- Implemented **OAuth 2.0 authentication** and integrated **Google APIs and Microsoft APIs** for secure third-party access

- Utilized code quality and security tools including **Checkmarx, SonarQube, and Black Duck**
- Debugged and resolved production issues, enhancing application stability and performance
- Supported CI/CD processes using **Jenkins pipelines** and contributed to deployment workflows
- Managed version control using Git (branching, merging, pull requests) and supported deployment on AWS (EC2, S3 basics)

PROJECTS

Quantum Alumni Web Application (Link-Project): Oct/23– Apr/24

Tech Stack: React.js, Node.js, Express.js, MongoDB, (MERN)

- Implemented OAuth 2.0 authentication with **Google APIs** for secure third-party login and seamless user onboarding
- Engineered a F**ull-stack alumni platform** supporting networking, mentorship, and event coordination.
- Designed and integrated **RESTful APIs** for seamless communication between frontend and backend systems
- Developed a job posting and blogging system, enabling alumni-driven referrals and content sharing.
- Implemented **JWT-based authentication and role-based access control** to secure user data and platform features

Quantum Learning Resource Center (Link-Project): Apr/22 – Jun/22

Tech Stack: React.js, Node.js, Express.js, MongoDB, (MERN)

- Developed a centralized learning resource platform to support students with structured academic content
- Designed and implemented **RESTful APIs** for efficient data retrieval and seamless frontend-backend integration
- Implemented file upload functionality using **Multer middleware** for handling multipart/form-data in Node.js
- Applied **input validation and error handling** to ensure application reliability and data integrity
- Integrated file uploads with **AWS S3 for scalable and secure storage of media and documents**
- Implemented **search and filtering functionality** to improve accessibility and navigation of study materials

RESPONSIBILITY & ACHIEVEMENTS

Senior Coordinator — Codex Club, Dharohar Tech Fest, Quantum University | Mar 2022

- Led event coordination and managed team operations for a university-level technical fest with 500+ participants, ensuring smooth execution
- Collaborated with cross-functional teams to organize web development and technical events successfully
- Managed event planning, task delegation, and on-ground execution, improving team efficiency and coordination

Hackathon Participant — Quantum University | Apr 2021

- Participated in a university-level hackathon, collaborating with teams to develop web-based solutions
- Applied skills in web development, debugging, and problem-solving to deliver functional prototypes
- Strengthened collaboration, rapid prototyping, and technical problem-solving abilities
